

Student Welfare

Sheffield Language Centre is committed to providing the necessary advice and pastoral care to its students. All student welfare queries can be dealt with by any staff member at Reception, who has both general and more specialised information on issues that students commonly face. Each Reception staff member is responsible for dealing with student welfare enquires that fall into their individual areas of professional expertise.

Staff also provide pastoral care and are encouraged to raise any concerns. Staff, associates or parents who have any concerns about the welfare procedures related to a specific student should contact the school management.

For more complicated issues involving student welfare, please contact the school's Student Welfare Officer, **Mohamed Abdul-rub**
